

Texas Wheat Varieties Planted for 2015

Texas Wheat producers were surveyed in December 2014 and January 2015 to report acres of wheat planted and to be planted by variety for the 2015 crop year. The survey was funded by Texas A&M AgriLife Extension, the Texas Wheat Producers Association, the Texas Foundation Seed Service and the Texas Seed Trade Association. Survey results are provided in the following tables, with percent of acres planted for the 2015 crop year by variety and broken out by Texas A&M AgriLife Extension District.

TAM 111 remains the leading variety planted in Texas, accounting for 15.0 percent of the State's 2015 planted wheat acres, down from 16.7 percent in 2014. TAM 112 remains second, accounting for 5.9 percent of acres planted for 2015, compared with 5.3 percent last year. Duster is third, with 4.1 percent of the State acreage compared with 4.0 percent in 2014. Fannin, with just under 3.5 percent of the State acreage moved up four spots into fourth place, barely edging out Greer which moved down from 4th last year to fifth for 2015, with just under 3.5 percent of the 2015 acreage planted. TAM 105 is in sixth place with 2.7 percent of the State acres, compared with 2.8 percent the previous year. TAM 113, with 2.3 percent of the acres planted for 2015 jumps three places to 7th from 2014. Weathermaster 135 falls 3 places to 8th for 2015, with 2.1 percent of the State's acres. TAM 401 enters the top 10 at 9th place, with 1.9 percent of the State acreage for 2015. Endurance rounds out the top ten varieties for 2015 with 1.7 percent of the State acreage, falling one place from 2014. Coronado dropped out of the top 10 this year, and is now ranked 13th down from 7th in 2014.

Top 10 Varieties Planted for 2015				
Variety	Percent of Acres		Rank	
	2014	2015	2014	2015
TAM 111	16.7%	15.0%	1	1
TAM 112	5.3%	5.9%	2	2
Duster	4.0%	4.1%	3	3
Fannin	2.6%	3.5%	8	4
Greer	3.3%	3.5%	4	5
