

# TEXAS WHEAT VARIETIES

P.O. Box 70  
Austin, Texas 78767

1-800-626-3142  
www.io.com/tass

The top twelve hard winter wheat varieties accounted for 49.1 percent of Texas's 2000 winter wheat plantings. Each of these varieties represented more than two percent of the total planted wheat acreage. All hard winter wheat varieties accounted for 85.7 percent of the planted wheat acreage in Texas for crop year 2000. In 1990 hard winter wheat varieties accounted for 81.8 percent of the state's wheat acreage.

As in 1990, TAM 105 was the top variety planted in the state with 484,000 acres (8.1 percent); in 1990, TAM 105 accounted for 11.1 percent of the planted acres. TAM 202 replaced TAM 101 in the number two spot this year, accounting for 5.3 percent of the planted acreage with 319,500 acres. Longhorn debuted in the number 3 spot, accounting for 5.3 percent of the acreage with 316,900 acres. TAM W-101 slipped to the number 4 spot with 272,100 acres, 4.5 percent of the total planted acreage.

Soft winter wheat accounted for 7.9 percent of Texas's total planted wheat acres, up slightly from 7.4 percent in 1990. The top soft winter wheat variety was Pioneer 2571, with 1.1 percent of the total, at 68,500 acres. Coker 9663 was the number two soft winter wheat variety with 1.0 percent of the acreage, at 58,000 acres. In the number three spot was Pioneer 2548, the only one of this year's top three soft winter varieties that was also reported in the 1990 Wheat Variety Survey. Pioneer 2548 accounted for 0.5 percent of the state acreage, at 32,300 acres.

Norm was the only published variety of hard spring wheat reported, with 0.5 percent of the total planted acres. Only 0.6 percent of Texas's wheat acres were planted to hard spring varieties.

This survey was conducted by the Texas Agricultural Statistics Service (TASS) through funding from the Texas Wheat Producers Association. TASS and the Texas Wheat Producers Association were assisted in this survey effort by the Texas Wheat Industry and Texas Agricultural Extension Service.
